PROJECT(S)

NadhBlogs Central
Python|bs4 | Django| Frontend | Backend

Problem: It is very hard for people who want to know much about Latest technologies, crypto and ventures and if there is a website also but they didn't get the feature of reading blogs written by top persons in those respective field.
- Web Scraping is used to collect various articles on that topic.
- All the latest attempts are stored in the MySQL Database.
- Provides an interface for the famous authors to write blogs related to it.
- Link:// Nadhblogs
